

MISSING CHILD POLICY

Safeguarding & Welfare Requirements: Child Protection

Providers must have and implement a policy, and procedures, to safeguard children.

POLICY STATEMENT

The safety of the children at St Eval Pre-school is of primary consideration at all times. Children attending our setting will be looked after, by caring and vigilant adults, in a safe indoor and outdoor environment.

Aims

Our aim is to keep all children safe by having the following security measures in place:

- The front door is kept locked during sessions and during lunch club
- Children are only permitted to leave the setting if accompanied by a known and accountable adult
- Children are supervised by appropriate adults at all times - during outdoor play, the main gate is kept shut and locked. All children are supervised
- A daily record of attendance is maintained for all staff and children attending the setting
- Visitors to the setting have their identity verified before being permitted to enter the premises, all visitors must record their time of arrival and departure in the visitor's log book
- Parents are asked to inform the Manager if their child is particularly adventurous
- The Pre-school's designated health and safety coordinator regularly conducts checks of the setting for potential security risks
- Every staff member is aware of their responsibility to inform the Manager immediately should they realise a child is missing

In the unlikely event that we cannot account for a child, our missing child procedure will be implemented immediately.

Managing People

Incidents involving a missing child are very worrying for all concerned. The Manager will endeavour to keep all concerned parties as calm as possible and will not apportion blame to any individual. The Manager will ensure that staff members under investigation are treated fairly and are offered support. When dealing with parents, the Manager will be accompanied by a member of the Committee. Under no circumstances will threats or aggression towards staff members by parents be tolerated. In such a case, the police will be called.

Staff members will not discuss the incident in front of the remaining children. However, any questions will be answered in a reassuring and honest manner in order to minimise their anxieties.

Adults and children involved in the incident may require support and counselling depending on the severity of the final outcome. The Committee will use their discretion as to what action is deemed appropriate. Staff members may not talk to any press about the incident without taking advice.

All Policies to be reviewed annually.
